

District Health Dept. #4

Immunization Clinics

District Health Dept. #4 offers immunization clinics in all four counties on a monthly basis. Immunizations are available for children less than 19 years of age who are eligible to receive Vaccine for Children (VFC) vaccines. The clinic is opened to children who have Medicaid benefits, have no health insurance or that have health insurance that does not cover immunizations. An insured child (including MI-Child enrollees) is not eligible for the VFC Program. Eligibility is required to be reviewed and documented at each immunization visit.

Certain vaccines are available for uninsured and underinsured adults, who meet certain risk factors.

There is an administrative fee of \$10 for the first injection and \$7 for each additional injection per person. Please notify the Immunization Secretary, if due to hardship, you are unable to pay for any portion of the administration fee.

Clinic Schedules:

Alpena---3rd Wednesday of the month

Cheboygan---2nd Tuesday of the month

Atlanta---4th Tuesday of the month

Rogers City---1st Monday of the month

For more information or to schedule an appointment please call the office listed above where you would like to schedule your appointment.
