Reporting of COVID 19 Test Results Delayed

District Health Department No. 4 is actively working with the state to get the results for 471 COVID 19 tests done through community testing by the National Guard on May 30 and 31 in Mackinaw City. DHD4 will report test results when the information is available. “Unfortunately, we are at the mercy of the state contracted lab for results, and there were thousands of samples sent at the same time from the community testing events throughout the state,” Denise Bryan, Health Officer for DHD4. “We encourage people who were tested to log into the BioReference patient portal for quickest access to results.”

The reporting of test results to DHD4 is backlogged, one way for individuals tested at this event to get results is through the patient portal at www.bioreference.com/patient-portal. Start by selecting TEST RESULTS then CREATE AN ACCOUNT.
