

District Health Department No. 4

For Immediate Release
Date: September 24, 2021

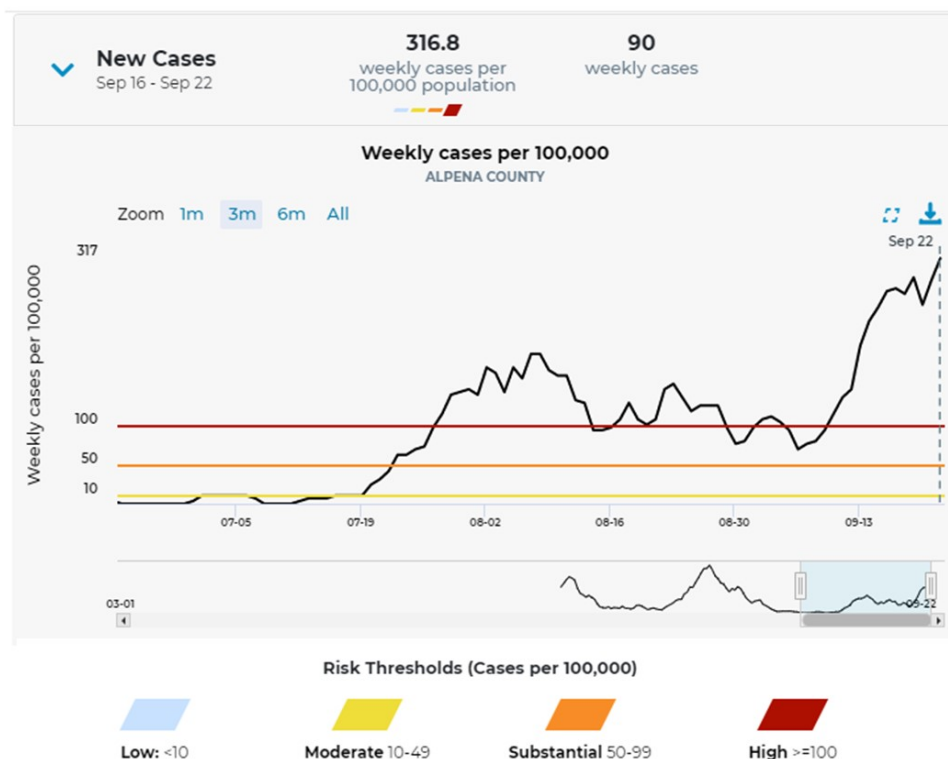

MI Safe Start Map highlights significant increase in cases

District Health Department No. 4 continues to monitor newly diagnosed COVID cases and test positivity rates and is releasing data for Alpena, Cheboygan, Montmorency and Presque Isle counties to demonstrate the spread of the disease in the region.

“These are two of the indicators we follow to assess the trends in the spread of COVID-19 in our community,” said Dr. Josh Meyerson, DHD4 medical director. “Below are graphs that demonstrate the rapid increase in cases that began in mid-August and reinforce the need to continue to take measures to reduce the spread through wearing face coverings, avoiding large groups whenever possible, staying home when ill, and frequent handwashing. And, the most important way to prevent the spread of COVID-19 is to get vaccinated.”

The graphs are from the [MI Safe Start Map](#) and apply CDC methodology to the most up to date State of Michigan information, and can be used in accordance with [CDC’s guidelines](#). The graphs show weekly cases per 100,000 population and the seven-day COVID-19 positive test rate for Alpena, Cheboygan, Montmorency and Presque Isle counties. Statewide, regional and other county information is available at [MI Safe Start Map](#).
